

PUBLIC NOTICE

FUJIFILM Hunt Chemicals, U.S.A. has applied to the Tennessee Air Pollution Control Division (TAPCD) for a [federally enforceable state operating permit](#) to opt out of being subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). FUJIFILM Hunt Chemicals, U.S.A. has agreed to be bound by a permit that limits their potential to emit for hazardous air pollutants, such that they are below the major source applicability thresholds. They have also agreed to be bound by a permit that limits their potential to emit for volatile organic compounds (VOC), sulfur dioxide, and nitrogen oxides, such that they are below the major source applicability threshold for each of these pollutants. FUJIFILM Hunt Chemicals, U.S.A. has agreed to use record keeping methods to prove that they are abiding by more restrictive emission limits. However, it should be noted that this facility has a current Title V state operating permit. Also, a construction permit is being issued to allow the combination of permit requirements for three existing separate permits for process lines into one permit unit.

The applicant is FUJIFILM Hunt Chemicals, U.S.A. with a site address of 411 Manufacturer's Road, Dayton, TN, 37321. They seek to obtain an operating permit for the manufacture of Specialty Chemicals.

The TAPCD has made the determination that this facility can be approved to opt out of being subject to Title V regulations if certain conditions are met. A copy of the materials used by the TAPCD in making this determination and a copy of the draft permit are available for public inspection during normal business hours at the following locations:
