

Tennessee Pollution Prevention Roundtable

Vision & Mission

Vision

The Tennessee Pollution Prevention Roundtable (TP2R) will be a national model for improving the environment and quality of life through cooperation and communication among educational institutions, environmental advocates, government and industry. Knowledge, understanding and trust will foster a spirit of cooperation leading to shared goals and objectives that enhance environmental stewardship in Tennessee.

The TP2R will be viewed as a credible, respected resource for environmental issues and the benefits of pollution prevention. All Tennesseans will benefit from the committee's environmental outreach, through a better understanding of the issues, their risks, the priorities and the solutions.

The spirit of cooperation exhibited by the Roundtable will motivate Tennesseans to work together to achieve meaningful and measurable environmental improvements.

Mission Statement

The TP2R will facilitate and implement activities designed to achieve significant and meaningful improvements in the quality of the environment of Tennessee and the quality of life for Tennesseans now and for future generations.
