

Come To One Of Our TP3-PT Workshops

These workshops will provide guidance to advance through the Tennessee Pollution Prevention Partnership (TP3) levels, mentoring and outreach opportunities, and networking opportunities. TP3 Partners, TP3 Performers, and EPA Performance Track (PT) members will also be encouraged to consider dual membership in the state and federal environmental leadership programs.

- ❑ Understand the criteria for advancing through the TP3 levels
- ❑ Learn about US EPA's Performance Track (PT) program
- ❑ Hear innovative P2 projects and membership benefits from TP3 and PT members
- ❑ Network with and get assistance from TP3 and PT members in your area
- ❑ Share your ideas on what TP3 can do for you

There is no fee for these workshops. Please register by the **deadline for the workshop of your choice by sending an email to the Regional Workshop Contact listed in the table below.**

All workshops are from 8:30 a.m. to 3:00 p.m. local time.

If you have special dietary preferences, such as vegetarian, please inform the Regional Workshop Contact when you register.

We are seeking input to prepare for the afternoon workshop session *TP3 Open Forum*. This session will involve issues related to advancing through TP3. Please send the Regional Workshop Contact a list of 3-5 issues that the partnership can assist you with while progressing through the program.
